## Projectalite

Haldo Developments Ltd is committed to designing products which have a design life warranty and can help reduce your carbon footprint.

### key benefits & features

- Flush fitting Basebox mounted 1 Metre from Chevrons/Sign.
- **UMSUG CODE: 40 0017 0000 100**
- LED light tray and driver come complete with a **6 year manufacturers warranty**.
- The light tray is rated at **17 Watts**.
- Angled LED's enable the light to be projected up to 1.5m high.
- The LED's offer a low wattage high light output which conforms to **BS EN: 12899**.
- Highly durable to many factors such as heat, shock and vibration.
- The LED's operate in **Pure White** - Colour Rendering Index - Ra70.
- The driver current rating - 0.25 A @ 100 volts - 0.15 A @ 265 volts
- Lumen depreciation to 75% after 75,000 working hours.

### resistance to flooding

The light tray has been designed with flooding in mind, the light tray itself is sealed to **IP68** which is then housed in a new or an existing **IP67** sealed basebox.

### recycle

Haldo is committed to recycle the light tray at the end of it's life.

### benefits of using LED's

- LED's fire up immediately when energised, even in cold weather- No flicker.
- Maintenance is where the real savings are made. The LED manufacturer states a minimum life cycle of 75,000 working hours.
- Illumination is projected directly to the sign face, where it is most needed to enable safe sign visibility, minimising light pollution.
- Can be switched ON & OFF without affecting reliability or wasting energy.
- LED's run cool so there is very little loss of energy through heat dissipation.
- Fitting LED's will improve safety for contractors working on the highway by drastically reducing the amount of time spent on maintenance.
- LED's lower the environmental impact on disposal which contain none of the harmful chemicals associated with fluorescent lamps.
